Spec Sheet

7 ft Green Molded Cat5e UTP Patch Cable

StarTech ID: M45PATCH7GN

StarTech.com's Cat5e UTP Patch Cables offer reliable Ethernet connections. This 7 ft cable meets or exceeds all Category 5e specifications, and features a durable green jacket that simplifies departmental color coding while providing rugged flexibility for network connections.

To ensure long-lasting performance, our high quality Cat5e UTP Patch Cables offer PVC molded strain relief that prevents the RJ45 connector termination points from bending at sharp angles - reducing the risk of decreased network performance due to cable damage.

StarTech.com's 7 ft Green Cat5e UTP Patch Cable is constructed of only top quality materials to ensure durability and is backed by our Lifetime Warranty.

100% Copper - a better value StarTech.com Cat 5e cables are manufactured with copper conductors. While many cable manufacturers offer a "cheaper" cable based on a copper-coated aluminum core, we make no compromises on quality to ensure you receive top value for your cable investment. **24 Gauge Wire**Our Cat 5 cables are constructed with 24 gauge copper wire to support a broad range of Ethernet applications, such as Power over Ethernet (PoE). Because we use a high quality 24 gauge wire, our cables easily sustain the nominal voltage (48v) capability required for Power over Ethernet applications, whereas the inferior quality offered by copper-coated aluminum cables may be subject to insufficient power delivery, heat build up, equipment damage and potentially, fire. **50 micron Gold Connectors**StarTech.com Cat 5 cables offer high quality connectors comprised of 50 micron gold to ensure optimum conductivity while eliminating signal loss due to

oxidation or corrosion.

Technical Specifications

- Warranty: Lifetime warranty
- Carton Quantity: 150
- Shipping (Package) Weight: 0.2 lb [0.09 kg]

RoHS Compliant Available
